

Thermal Imaging Camera for Elevated Body Temperature Screening:

As per page 12, Point 4 of SOP for Social Distancing in the recent MHA guidelines, Thermal Scanning is being made mandatory for all workplaces by MHA. The product which we have launched is a dual camera model with thermal video overlay giving high accuracy. The Dual Sensor Thermal Imaging Camera has the following unique features, Thermal Camera system is a “Walk Through System” and not a “Look & Go”

- Dual sensor, Normal video and Thermal Overlay
- Alarm on high Temperature detection
- Up to Ten points of simultaneous temperature probing
- 1-4m distance reading
- Made in Korea

COVID Enhanced Security Range

THERMAL IMAGING CAMERAS

For elevated body temperature screening

The world has been gripped with one of the most fatal diseases of our time, COVID-19. At times like these, security continues to remain the centre of our focus. Godrej Security solutions is proud to present enhanced security products to tackle the pandemic. We hereby present a high tech series of products designed to keep the pedestrian entry ways at high risk areas completely secure.

Features:

- Thermal Camera system is a “Walk Through System” and not a “Look & Go”
- Dual sensor, Normal video and Thermal Overlay
- Alarm on high Temperature detection
- Up to Ten points of simultaneous temperature probing
- 1-4m distance reading
- High Temperature Detection generates **Real Time Alarm**
- **98% accuracy** in Temperature Detection & Reading
- Temperature Accuracy with maximum **0.05°C variation**
- **Dual sensor** (Normal Video Image and Thermal Image)
- Made in Korea
- Produce IMAGE from HEAT. (Not from visible light)
- Detect Long Wave Infrared (LWIR) Radiations from target object
- LWIR of Electromagnetic spectrum wavelength from 8 to 14 μm .
- Differentiate as small as 0.05°C and display them as shades of gray or with different colours
- No blackbody device required
